EXPERIENCE

FRONTEND DEVELOPER - REACT
ZEST LABS   Jul 2023 – Present
Mannheim, Germany (Remote from Sofia, Bulgaria)

- Developed and maintained scalable, modular components using React.js and TypeScript, enhancing application performance and maintainability.
- Collaborated with backend, frontend, and QA colleagues to integrate services, improving system communication and UI responsiveness.
- Implemented front-end best practices, improving page load times and overall user experience through performance optimizations.
- Built dynamic and responsive user interfaces using Material-UI (MUI), React Query, Zustand, React Hook Form, and Vest, ensuring seamless interactions.
- Enforced high code quality standards with TypeScript, ESLint, and code reviews, leading to a more maintainable and scalable codebase.
- Leveraged React Flow to design a node-based interface for exploring event data details, sequences and dependencies.
- Applied test-driven development (TDD) by developing comprehensive test suites with Vitest, increasing test coverage by 15%.
- Actively participated in code reviews, providing constructive feedback to maintain consistency and best coding practices across the team.
- Collaborated with the QA team to identify, debug, and resolve issues, ensuring the delivery of high-quality software products.
